The screenshot shows the Cornell Lab of Ornithology's Birds of the World website for the Cliff Swallow (*Petrochelidon pyrrhonotus*). The page features a large image of a Cliff Swallow in flight, a search bar, and navigation links. A sidebar on the left lists various sections such as Introduction, Identification, Plumages, Molt, and Structure, Systematics, Distribution, Habitat, Movements and Migration, Diet and Foraging, Sounds and Vocal Behavior, Behavior, Breeding, Demography and Populations, Conservation and Management, Priorities for Future Research, Acknowledgments, About the Author(s), Multimedia, Tables and Appendices, Revision History, and References. The main content area includes a distribution map of the Cliff Swallow, showing year-round, migration, and non-breeding ranges. A table below the map provides statistics from the eBird and Macaulay Library, including 1,531,750 observations, 60,417 photos, 1,282 recordings, and 213 videos. The page also includes a 'Sign in' button and a 'Subscribe' button.
